

KHINE NWE OO

FULL STACK DEVELOPER

Profile Summary

Full-Stack Developer with 4+ years of experience in designing and building user-centric web applications. I've been involved in developing ISP solution's modules, Ecommerce platforms, dynamic websites for industries such as education, events, fitness and travel, ensuring seamless project execution from development to deployment. I'm proficient with popular frameworks like Laravel, Vue.js, React and Express. I bring a strong sense of ownership, ensuring quality and timely completion while embracing new challenges.

Work Experience

Full Stack Developer

Mahar NET | Yangon, Myanmar

(Jul 2022 – Sep 2024)

- Contributed in key projects including an Internet Service Provider (ISP) Management System, User App Admin Portal and Restful APIs for Mobile App using Vue.js and Laravel
- Implemented and optimized backend modules such as Order, Plan Change, Billing, Tickets, Sales Care, Finance, Reporting for the ISP Management system.
- Developed new features and provided realistic timelines for deliverables.
- Managed state with Vuex to improve user interface and performance.
- Debugged, resolved issues across the application and optimized system performance, resulting in system efficiency and faster load times
- Deployed using Git, Nginx, Apache by updating new features into the production
- Collaborated closely with QA engineers to understand requirements and also work with mobile developers to finalize API work flows.

Senior Web Developer

AEG Ltd | Yangon, Myanmar

(Apr 2021 – May 2022)

- Built LMS(E-learning) and multivendor Ecommerce platforms using tech stack such as Laravel and Livewire
- Deployed and managed web applications on servers such as Digital Ocean Droplets, and other private servers
- Continuously collaborated with cross-functional teams to document processes, enhance user experience, and deliver new features effectively
- Integrated Laravel APIs with third party VR (Myoe Pya) group and ensure seamless data exchange between systems for Virtual Reality experience
- Fostered a culture of continuous learning by mentoring junior developers, conducting performance evaluations and facilitating skill development training.
