Bangkok, Thailand

Skills

🔗 Languages

HTML5, CSS3, JavaScript, PHP,
TypeScript

🔗 Frameworks

Laravel, Express.js (Node.js), React,
Vue, TailwindCSS

🔗 Databases

MySQL, MongoDB, PostgreSQL, Redis

🔗 DevOps & Tools

Git, GitHub Actions, Docker, Nginx,
Firebase

Soft Skills

- Problem Solving
- Critical Thinking
- Time Management
- Team Collaboration

Profile Summary

Driven by result and curiosity, I specialize in implementing intuitive and high-performance web applications. With over 4 years of experience, I've designed, developed and deployed dynamic platforms – from ISP CRM to E-commerce solutions – spanning industries like education, events, fitness and travel. My expertise includes PHP, Node.js and popular frameworks like Laravel, Vue, React and Express. I'm known for diving into new challenges with confidence and ownership. I deliver not just clean code, but consistently successful outcomes on time, with precision, and always user-centric.

Work Experience

Full Stack Developer

Jul 2022 – Dec 2024

Mahar NET | Yangon, Myanmar

- Contributed to key projects in ISP Management System (CRM) and User App Admin Portal using Vue and Laravel, with successful implementation of complex modules
- Developed and optimized backend module's features which includes Order Management, Plan Change, Billing, Complaint Ticket, Sales Care, Reporting and Finance while enhancing scalability and performance of the system.
- Designed and implemented RESTful APIs with Laravel to support mobile app, and improved system interoperability.
- Utilized Vuex to manage state across the frontend UI, ensuring more structured flow of data and efficient user interactions.
- Debugged and resolved system issues, significantly improving performance and reducing load times
- Collaborated closely with QA engineers to refine test cases and worked with Mobile developers to finalize API work flows.
- Supported deployments on Linux-based server environments while implementing updates and logging for enhanced system reliability.

Senior Web Developer

Apr 2021 – May 2022

AEG Ltd | Yangon, Myanmar

- Designed and developed high performance systems using Laravel and Livewire for E-commerce and learning management applications.
- Worked with clients to gather requirements, propose technical solutions, and ensure project delivery met business needs.
- Integrated with VR system and APIs to ensure seamless data exchange between systems for E-commerce platform's Virtual Reality experience.

Education

Bachelor of Science (Physics)
– Sep 2011
East Yangon University

Level 5 Diploma in Computing
– Jan 2016
NCC, UK

Level 4 Diploma in Computing
– Apr 2014
NCC, UK

Certificates

- ✓ Talent Program Myanmar
(ACE Data System Group)
- ✓ PHP Web Developer Bootcamp
(Myanmar IT Consulting)
- ✓ Practical Advanced Java
(Acroquest Technology)

Language

- ✓ Burmese (Native)
- ✓ English (Intermediate)

Work Experience

- Maintained and evolved client's existing web applications (MHSRJ, Government Health Research system).
- Coordinated project planning and implementation across multiple teams
- Deployed and managed web applications on servers such as Digital Ocean Droplets and VPS.
- Gained hands-on experience in software development practices and methodologies, and enhancing skills in application development and design
- Mentored junior developers, fostering a collaborative and knowledge-sharing environment within the team.

Web Developer

GIGA Link Technology | Yangon, Myanmar

Jan 2020 – Feb 2021

- Designed and developed responsive, interactive websites with a focus on clean UI/UX using WordPress, Drupal and Magento, ensuring cross-browser compatibility.
- Maintained and supported the production environments, proactively identifying and resolving issues to ensure site stability and reliability.
- Worked with design team to align technical implementations with project requirements and UI/UX best practices.
- Utilized my proficiency in a diverse tech stack, including HTML, CSS, JavaScript, Ajax and PHP to deliver dynamic and interactive web solutions that met or exceeded client expectations and earned positive feedback.

Personal Projects

Mern Chat

Technologies Used: Express & Node.js, MongoDB, React, Socket.io, Daisy UI

Key Features: Real-time Messaging and file uploads, view active users, Profile update, Setting support, JWT authentication, State Management with Zustand

Demo: <https://mernlivechat.onrender.com/>

Smart Spender

Technologies Used: Express & Node.js, MongoDB, React

Key Features: Income and Expense Management, Social Login Integration, Visual Summaries, search and filter transactions

Demo: <https://smartspender-track.vercel.app/>

ProJix

Technologies Used: Laravel (Backend), React.js (Frontend), TailwindCSS

Key Features: Project & Task Management, role-based access control, Dashboard for Admin and Member, search & filtering functionality, user-task assignment, member creation & management, responsive & accessible design

Demo: <https://project-creator.laravel.cloud/>

Portfolio Website

Technologies Used: Next JS, TypeScript, Tailwind CSS

Demo: <https://khinenwe.vercel.app/>
